

# WISETIME FOR CLIO

Get time for more by connecting  
WiseTime to your Clio account

# CLIO CONNECTOR

The WiseTime for Clio Connector gives attorneys time for more by taking timekeeping off their to-do list. WiseTime and Clio work together to make billing more efficient, so attorneys can focus on their clients, not on admin.

## WiseTime for Clio will do wonders for your efficiency

WiseTime is for attorneys with more important things to do than timekeeping. We know the trouble of losing time because you were too busy to record it.

WiseTime relieves you of the need to remember your time, or press start and stop on a timer. WiseTime passively captures your activity while you work and collates it in a private timeline, ready to review.

Imagine never having to manually record a minute, and still reaching 5 o'clock with a detailed draft of your day's activity.

## Your Clio Matter IDs are automatically identified

With WiseTime connected to Clio, your matter IDs are synced directly from Clio to WiseTime. This means any Clio matter IDs that appear within your activity timeline are

automatically recognised. WiseTime uses the title of your active window so that any document or email that you work on with the matter ID present in the document name or subject line will be automatically assigned to the correct matter.

## Send your activity seamlessly to Clio

Everything in your timeline is 100% private to you, so you can review your day's work, assign any additional matter IDs to an activity or add descriptions before you choose which activities to send to Clio. With Clio connected, you can even assign charge codes to your activity from within WiseTime, so that all your activity is ready to be invoiced when you send it to Clio.

## Effortlessly create detailed invoices

With WiseTime as your memory, you won't miss a minute and your timekeeping will be detailed and meticulous – all without any manual input from you. Now you can easily send clients invoices that show them exactly where your attention was.

## Bill faster and bill better with WiseTime connected to Clio.

Let WiseTime  
take care of your  
timekeeping, while you  
focus on what's important.

## What our customers have to say:

"WiseTime has become an indispensable part of my practice administration. The cost of the application pales in comparison to the increase in revenue which it generates. Since its implementation, WiseTime has contributed to a nearly 40% increase in billable time capture in my practice. I recommend the product unequivocally."

Joshua Upin  
Attorney, United States

"Working with WiseTime allows me to focus on my work, and address the interruptions of a normal day at the office, without the additional distraction of maintaining, updating, or correcting my timekeeping."

David Mueller-Wiesner  
Spruson & Ferguson,  
Australia

"It was my suspicion that we lose a lot of billing time. Within the first few days I recovered an additional billing time that is good for paying the software for 6 months... it became a piece of software the I cannot live without anymore."

Martin Schweiger  
Schweiger & Partners,  
Singapore & Germany
