

AUTONOMOUS, AI DRIVEN TIMEKEEPING

Increase billable hours
and decrease admin

WISETIME & CLIO

Connecting WiseTime to Clio gives attorneys time for more by taking timekeeping off their to-do list. WiseTime and Clio work together to make billing more efficient, so attorneys can focus on their clients, not on admin.

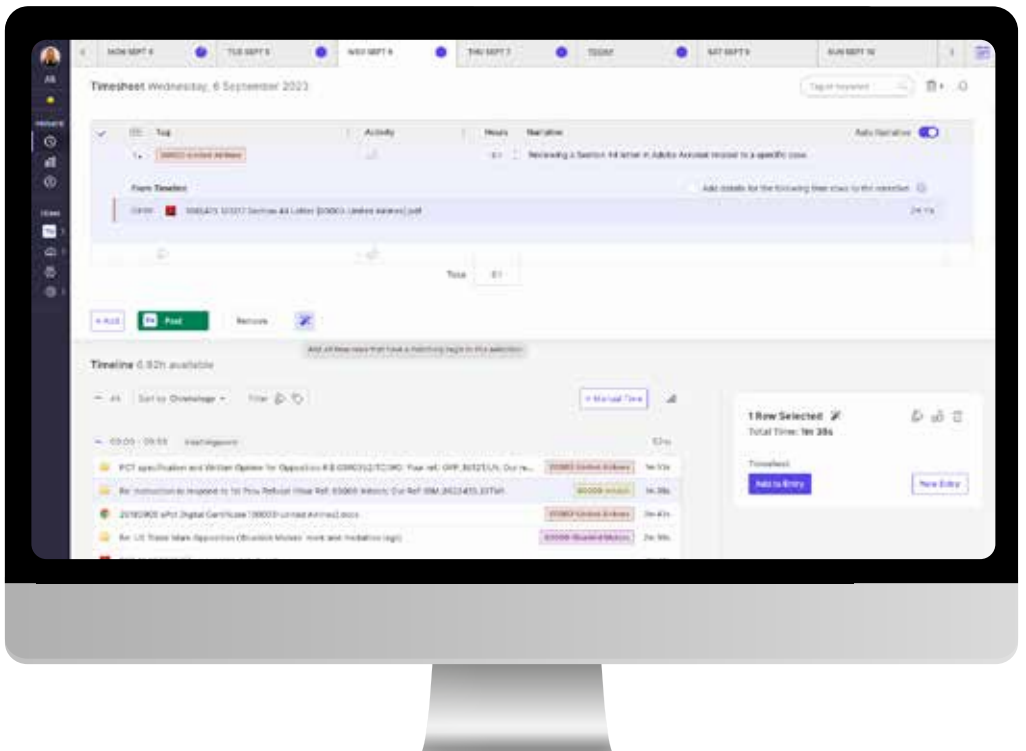

Automated time entry works while you do

We know the trouble of losing time because you were too busy to record it.

WiseTime relieves you of the need to remember what you were doing, or press start and stop on a timer. WiseTime passively captures your activity while you work and collates it in a private timeline, ready to review.

Using your active window, WiseTime keeps a record of your days work for you without missing a beat or interrupting you.

Your Clio Matter IDs are automatically identified

Your matter IDs are synced directly from Clio to WiseTime. This means any Clio matter IDs that appear within your activity timeline are automatically recognised. When the matter ID is present in the document name or subject line of your email, the activity will be automatically assigned to the correct matter.

Uncompromised individual privacy

Everything in your timeline is 100% private to you, so you can review your day's work, assign any additional matter IDs to an activity or add descriptions before you choose which activities to send to Clio. With Clio connected, you can even assign charge codes to your activity from within WiseTime, so that all your activity is ready to be invoiced when you send it to Clio.

Effortlessly create detailed invoices

With WiseTime as your memory, you won't miss a minute and your timekeeping will be detailed and meticulous – all without any manual input from you. Now you can easily send clients invoices that show them exactly where your attention was.

Our NarrateGPT feature will even summarise your captured activities for you within the timesheet so that you can send a concise narrative summary of your case work to be added to your invoice.

Send time entries directly to case files

WiseTime's expert integration knows exactly where to send your timesheet entries within Clio.

Bill faster and better with WiseTime connected to Clio.

Let WiseTime
take care of your
timekeeping, while you
focus on what's important.

What our customers have to say:

"WiseTime has become an indispensable part of my practice administration. The cost of the application pales in comparison to the increase in revenue which it generates. WiseTime has contributed to a nearly 40% increase in billable time capture in my practice."

Joshua Upin
Attorney, United States

"Our most significant evidence of the success is that we are capturing more time in our day as a result of this software [WiseTime]. We're picking up two-digit percentages in overall revenue, simply as a result of using this software. It's almost impossible to believe how simple it is."

Quin Ross,
The Ross Firm, Canada

"It was my suspicion that we lose a lot of billing time. Within the first few days I recovered an additional billing time that is good for paying the software for 6 months...it became a piece of software the I cannot live without anymore."

Martin Schweiger
Schweiger & Partners,
Singapore & Germany
