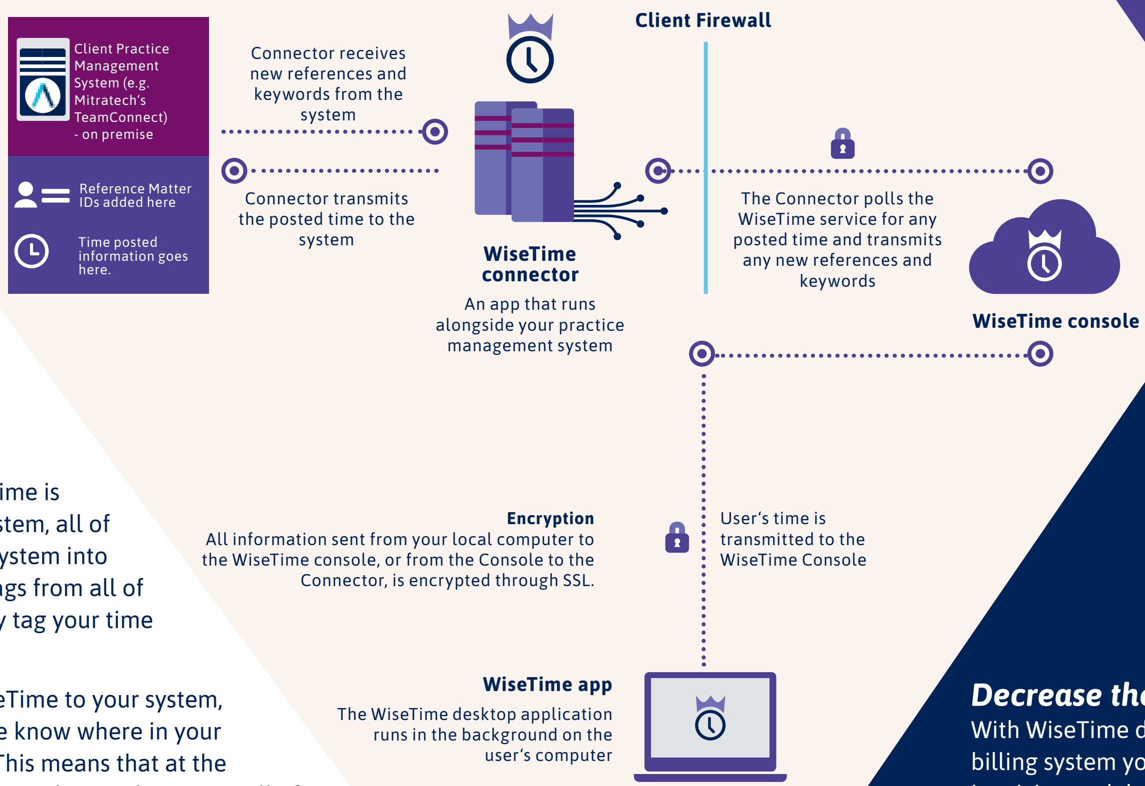
WiseTime Integrations

WiseTime was designed to connect, so we've built it to ensure that connecting to existing systems is simple and fast.



Plug in today with our pre-built connectors

We've done the hard yards for you so that you can easily connect your existing system to WiseTime. The process is expertly managed by our team.

Our connectors allow you to post your time information directly into your client's billing sheet with the click of a button. Once WiseTime is connected to your practice management system, all of your case references are copied from your system into WiseTime. This allows WiseTime to create tags from all of your case references and then automatically tag your time entries when the case reference is detected.

Whenever time entries are posted from WiseTime to your system, the tags assigned to the entries let WiseTime know where in your system to allocate the time information to. This means that at the click of a button the time information from your day can be sent to all of the right client files in your billing system with a great level of detail and accuracy.

We can also configure WiseTime to contain any internal activity codes that you choose to enable you to assign these to your time entries before you post them.

Our current pre-built on-premise connections include

- **TeamConnect** by Mitratech
- **AQX** by Anaqua
- **PATTSY WAVE®** by Anaqua
- **Dynamics 365 Business Central** by Microsoft

WiseTime
TIME FOR MORE

Decrease the admin in your processes

With WiseTime data feeding easily into your existing billing system you'll increase accuracy and speed of invoicing and decrease admin tasks dramatically.

Easily create meticulously detailed invoices

Providing activity details down to the second would be impossible without serious workflow interruptions but you can produce this detail effortlessly with WiseTime. With WiseTime plugged into your billing system you can produce granular billing reports at the click of a button.

Build even better relationships with fair, transparent billing

Your clients will love the level of detail and transparency that you can offer using your WiseTime data, turning billing reports into relationship building moments.
